Film-Tech

The information contained in this Adobe Acrobat pdf file is provided at your own risk and good judgment.

These manuals are designed to facilitate the exchange of information related to cinema projection and film handling, with no warranties nor obligations from the authors, for qualified field service engineers.

If you are not a qualified technician, please make no adjustments to anything you may read about in these Adobe manual downloads.

IMPORTANT INFORMATION CONCERNING THE SOFTWARE UPGRADE INCLUDED ON THESE DTS SOUND TRACK DISCS

New software has been released for the DTS-6AD and XD10. To allow you to immediately install the new software, the upgrade programs are included on these sound track discs. Not all sound track discs will have them. The upgrades are very easy to install and can be accomplished by non-technical personnel.

Note: The DTS-6, DTS-6D, DTS-ES, DTS-CSS, and XD10P are not affected and do not need the upgrade.

XD10 Cinema Media Player

First verify its software version by pressing ENTER – Info – Version.

```
DTS-XD10  2.00.43
Dec 18 2006  14:48:37
General Model
Copyright (c) 2006
By DTS, Inc.
```

If your XD10 is at 2.00.40 or higher then the upgrade to 2.00.43 will occur automatically.

If your XD10 software version is lower than 2.00.40, then the upgrade program will not install. In this case, you will need to contact your DTS dealer***** and order the free V2.00.43 upgrade package, DTS part number **9005F59000B**. Once the XD10 is upgraded, its version screen will appear as shown above (press ENTER – Info – Version):

> *****To find a DTS dealer near you, go to http://www.dts.com/cinema. From "Find DTS" in the right column, click on DTS Cinema Hardware Dealers

DTS-6AD Cinema Processor

The upgrade program will not automatically load into the DTS-6AD so please follow the easy steps below to manually load the software:

DTS-6AD Upgrade Procedure

1. Remove all discs from the DTS-6AD disc drives.

2. Insert the sound track discs, A-disc into the "A" drive and B-disc into the "B" drive.

3. Use the power switch on the front panel of the DTS-6AD to power down the unit.

4. Locate the [FMT] key.

5. Press and hold the [FMT] key and turn on the DTS-6AD with the front panel switch. Continue to hold the [FMT] key for about 5 seconds while the system performs the self-test.

6. Release the [FMT] key when the display reads:

```
DTS-6AD BOOT V1.0x

Selftest . . . OK

<OK>-Install Program
```

7. Press [OK] key to start the automatic upgrade process. The process takes about 3 minutes.

8. The following will be displayed when the upgrade process has successfully completed:

```
DTS-6AD LOADER V1.00H

Finished

Press [OK] to Reset
```

9. Press the [OK] key to reset the system

10. Check the DTS-6AD software version to verify that the software update has been completed:

      a. Press the [MENU] key.

      b. Press the [F7] key (VERSION).

      c. The following information should be displayed:

```
CPU VERSION 2.08

DSP CONTROLLER 1.03

DSP FIRMWARE 2.06
```

11. Contact DTS Technical Support if the CPU Version does not upgrade to 2.08.

12. The unit is now ready to operate as normal.

Troubleshooting

1. The following error may appear while performing the upgrade.

```
DTS-6AD LOADER V1.0x

Checking System Disk

Error:

Disk Missing
```

Solution: The DTS-6AD did not detect the disc in one of its drives. Check that the disc is in the drive. Try moving the discs to other drives if the problem persists.
